

### WHOLE SCHOOL SPONSORSHIP PROGRAM

Junior Achievement brings relevant economic education programs to students of all ages, preparing them to become better consumers, citizens, employees, and leaders.

The Whole School Sponsorship Program provides age-appropriate lessons for each grade, kindergarten through eighth. Students learn in an interactive environment, developing an understanding of how the free enterprise system works. The K-8 materials demonstrate the rewards of academic learning and lifelong achievement. Through these activities, students develop a better understanding of the relationship between what they learn in school and their successful participation in our economy. Volunteers serve as classroom consultants and conduct learning activities to support the classroom teacher. Through the Whole School Sponsorship Program, an organization selects a school and provides the volunteers and the funding necessary to bring Junior Achievement's programs to all its classrooms.

*lifelong* Achievement

#### Whole School Sponsorship typically requires:

- **Agreement** to provide the funding to sponsor Junior Achievement's programs. Sponsorship fee includes all program materials, volunteer training, supplies, service, and evaluation costs.
- **Commitment** to provide volunteers to teach the Junior Achievement curriculum in every classroom at the selected school. The individual class time commitment is generally five visits of 30-45 minutes each for the kindergarten through fifth grade programs, or six to eight visits of 40-50 minutes each for sixth through eighth grades.
- **Appointment** of a liaison from the organization to work with Junior Achievement staff and coordinate the activities within the organization.
- **Arrangement** to provide a location for the required volunteer training.

The Whole School Sponsorship Program ensures that all children experience Junior Achievement consistently throughout their formative years.
